

Trust Financials

recruitment and consulting

# Trust Financials is an agency specialized in the recruitment of highly educated financials with a focus on (Dutch) Trust- and Accountancy Offices.

My name is Prema van Wersch. I have a solid experience of 4 years, with the recruitment of Financials within Dutch Trust- and accountants' offices and I have worked in companies providing- or related to financial services for 12 years. I like the branch and have an affinity with it and I have built a very strong network of professionals working in these sectors.

Over the years I have developed myself as a businesswoman, always keeping my contacts and network very warm. People who have worked with me, know that a connection for me goes deeper and further than "just doing business". Networking and getting to know people is a part of who I am and what I do and what brings joy to my work and my daily life. This is also my "secret ingredient" for successfully doing business.

In the last 25 years, I have had wonderful, exciting and challenging management positions within the field of recruitment, sales, marketing and business development and I have developed my own, unique restaurant concept. After COVID I, unfortunately, decided it was better to close my restaurant business, but where one door shuts another one opens....

I am very happy to announce that I am now launching my own Financial Recruitment Agency, with full confidence and high expectations. We are focused on the Dutch Trust Market but our network extends to other branches too.

"Networking and getting to know people is a part of who I am and what I do."

## How do we work?

It is very important to me to know my customers as each company and even departments within the company have their own ethics and individuality. It is extremely important to me to get to know you, as I get to know my candidates, to provide long-lasting working relationships. Between the candidates I recruit and your company and between ourselves. We can set up a video call or schedule a meeting face to face to get further acquainted.

## Benefits

- Know your Branch
- Understand which candidate profile is interesting to your sector
- Proven track record of successful recruitment
- Work with ALL companies, large and small
- Two-term payment

I would love to get to know more about you and have the opportunity to introduce myself and Trust Financials.
